## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hasegawa et al, 6,755,995 B1 (Hasegawa) in view of Hall 6,025,422, further in view of Ogawa et al, 4,417,018 (Ogawa), for reasons of record.

### ***Response to Arguments***

3. Applicant's arguments filed June 15, 2006 have been fully considered but they are not persuasive.

Applicants' primary argument is that the prior art does not teach that the phosphorus group is chemically bonded to the polymer. This is not found to be persuasive because there is no clear factual evidence on this record that end polymer of the prior art does in fact have phosphorus groups that are not chemically bonded. There is no evidence that mixing does not or would not result in the bonding of two components.

No claims are allowed.

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
